BelAire®
DESIGNER FENCING

Who we are

BelAire is a brand of Storetech Industries. Storetech Industries is a family owned business that has been operating since 1974.

Core Values

Internal

Passion - Integrity - Loyalty
Storetech Team Player

External

Greater Customer Experience - Trust
Loyalty - Effort - Excellence

Our Mission

To make sure New Zealanders can be confident that their outdoor equipment and personal environment is secure and protected by offering New Zealand's widest range of simple, modular fencing solutions while adhering to our core values.

Ben Carney - Owner/Director

Peter Carney - Owner/Director

Frameless Glass Fencing & Balustrade

CLEAR

BelAire frameless glass pool fencing and balustrade is invisibly superior – it's crystal clear without the green tint you get with inferior brands. Enjoy lounging by the pool or on the deck with nothing to interrupt your view. Relax behind a strong, effective wind barrier and take in all-day sunshine as BelAire glass casts no shadows!

SAFE

With uninterrupted views, you'll always be able to keep your eye on the kids as they play in the pool. With 12mm thick toughened safety glass and polished bevel edges, you'll know they'll also be safe and sound outside the fence. Our gates use a self-closing hinge with a side pull latch, so you'll know they'll never be left open by mistake.

VERSATILE

BelAire can be installed on a variety of surfaces, including tiled areas, pavers, timber decks, concrete and across landscaped areas – making it a truly versatile option for pools, water features, patios, decking, and natural environments. The modern architectural look can also be customised from our selection of elegant, corrosion-resistant mini posts, latches and hinges to match your property.

EASY

It's so simple to clean and maintain – with no frames to collect water and dust, with corrosion-resistant hardware throughout, it will remain sparkling with minimum effort.

It's simple to install – most homeowners would find the system quick and easy to install using basic tools that they would have in their shed. If you'd rather get someone else to install it, we have a list of preferred installers throughout New Zealand. Call us on 0800 235 2473 and we will put you in touch with an installer in your area.

COMPLIANT

Our toughened safety glass comes with the PAS Mark AS/NZS2208 marking on every panel and is F4 and F9 Building Code compliant. Should you require a PS1 (or an Extra High Wind Zone PS1) to submit with your pool or building permit request, please email us at info@belairefencing.co.nz

You will require a handrail on your balustrade or pool fencing if there is a drop of more than 1m on one side. BelAire slimline handrails are manufactured from polished stainless steel to create a sophisticated finish that does not diminish the appearance of your glass fencing. They are also very strong and fully compliant to NZS4223:2016.

EXAMPLE CONFIGURATION

INDEPENDENTLY LOAD TESTED

BelAire:
345kg

Compliance
requirement:
240kg

Average
adult man:
81kg

Loads distributed through
a 960mm x 960mm timber
load board

GENERAL FEATURES

- 12mm toughened safety glass
- New Zealand standards compliant
- 10 year warranty
- DIY instructions included

Compliant with:

F4 and F9 Building Code compliant.

AS/NZS2208: 1996

New Zealand standards for
safety glass manufacturing

NZS 8500

Safety barriers and fences around
swimming pools, spas and hot tubs

NZS 4223.3:2016

Approved Balustrade Handrail

SOFT, NOT SLAMMED

Even though BelAire gates are made from toughened safety glass, a slammed glass gate will always put you on edge. Relax. Upgrade to glass-to-glass or glass-to-wall **Polaris soft-closing hinges**, and you'll never hear the bang of a slammed gate again!

Choose to upgrade to Polaris soft-closing hinges when you order online, or just talk with one of our friendly sales representatives.

FRAMELESS GATE LAYOUTS

GLASS-TO-GLASS HINGES & GLASS-TO-GLASS LATCH

- Hinge panel available widths: 900/1100/1300/1450/1600mm
- Use a friction latch. Any size panel can be used as a latch panel

GLASS-TO-GLASS HINGES & WALL/POST GATE LATCH

- Hinge panel available widths: 900/1100/1300/1450/1600mm

WALL/SQUARE POST GLASS HINGES & GLASS-TO-GLASS LATCH

- Use a friction latch. Any size panel can be used as a latch panel

The World's Leading Glass Treatment

ULTIMATE PROTECTION

Optically clear, UV stable, chemical resistant, water and oil repellent.

LOW SERVICING COSTS

EnduroShield keeps glass visibly clearer for longer and reduces the time to clean the glass by 90%.

HIGHLY DURABLE

Permanently bonds to the glass and comes with a true 10 year performance warranty*

SUITS ALL GLASS RANGES

From balustrading to pool fencing, high rise and domestic glazing, shower screens and insulated glass units, EnduroShield is the smart choice for glass.

Silicone Based coating

Competitor products fill in hills & valleys of the glass.

EnduroShield Coating

EnduroShield follows hills & valleys of the glass.

Silicone based seals sit on top of the glass surface and can quickly wear off, leaving the surface unprotected. EnduroShield follows the hills and valleys of the glass, forming a strong, permanent* bond that does not flake or peel.

TESTING AND CERTIFICATION

*EnduroShield's performance has been independently tested by one of the leading global testing and certification houses, TÜV Rheinland in Germany for durability, easy-clean functionality, safety and quality. Testing was carried out to simulate a lifetime of 10 years on glass for both interior and exterior use, and EnduroShield passed all tests.

- Easy to clean
- Durability tested

*Contact us for warranty info and terms and conditions.

* Extra high wind zone

WIND ZONES

Wind regions for BelAire spigots to suit occupancy A,B, E, and C3

NZS 3604 divides New Zealand into two wind regions (A and W) and several lee zone areas – these are areas where the landforms create localised wind acceleration resulting in higher wind speeds than the rest of the region. It also classifies wind zones into categories, set out in the following table, according to maximum ultimate limit state speeds. Wind zone classifications (from NZS 3604 Timber framed buildings)

Classification	Maximum ultimate limit state speed
Low	Below 32 m/s
Medium	37 m/s
High	44 m/s
Very high	50 m/s
Extra high	55 m/s
Specific design (SD)	Over 55 m/s

Pool Fencing - Max Panel Size & Spigot Quantity

Min 1200mm High

	Tekapo	Milford	Kaweka	Aoraki	Rakaia Channel
Up to Very High Wind Regions	1600W x 1200H (2 Spigots) 1250W x 1350H (2 Spigots) 1600W x 1350H (3 Spigots)	1600W x 1200H (2 Spigots) 1250W x 1350H (2 Spigots) 1600W x 1350H (3 Spigots)	1600W x 1200H (2 Spigots) 1250W x 1350H (2 Spigots) 1600W x 1350H (3 Spigots)	1100W x 1200H (2 Spigots) 1600W x 1200H (3 Spigots)	1600W x 1350H
Extra High Wind Regions	1350W x 1200H (2 Spigots) 1600W x 1200H (3 Spigots)	1350W x 1200H (2 Spigots) 1600W x 1200H (3 Spigots)	1350W x 1200H (2 Spigots) 1600W x 1200H (3 Spigots)	900W x 1200H (2 Spigots)	1600W x 1350H

Balustrade With Handrail - Max Panel Size & Spigot Quantity

Min 1000mm High

	Tekapo	Milford	Kaweka	Aoraki	Rakaia Channel
Up to Very High Wind Regions	1400W x 1200H (2 Spigots)	1400W x 1200H (2 Spigots)	1400W x 1200H (2 Spigots)	900W x 1200H (2 Spigots) 1400W x 1200H (3 Spigots)	1600W x 1350H

FIXINGS FOR ALL SPIGOTS

TIMBER FIXINGS

Countersunk Timber Screw 140mm Long
 Stainless Steel 316 (Hex head drive)

Order Code: SCETCSK

- Self tapping 140mm length with M8 diameter screw
- Spigots: Tekapo, Rakaia Channel

M12 Coathcrew Timber Screw 135mm

Stainless Steel 316 (Hex head drive)

135mm Order Code: SCETHX (for Kaweka spigots)

- Self tapping 135mm length with M12 diameter screw
- Spigots: Kaweka, Milford

M10 & M12 Timber Lag Screw 140mm Long

Stainless Steel 316 (Hex head drive)

Order Code: SCELAG140 (M10 Rakaia Channel)

Order Code: SCELAG160 (M12 Aoraki Spigots)

- Self tapping 140mm or 160mm length
- 2 x M12 nuts or M10 nuts
- Spigots: Aoraki, Rakaia Channel (Bottom Fixing)

Chemset: SCECHEM Chemset

Used with SCETHR12 or SCETHR10 Stainless threaded rod into concrete

CONCRETE FIXINGS

M8 Countersunk Concrete Screw ANCHOR 80 & 95mm Long

Stainless Steel 316 (Torx head drive)

80mm Order Code: SCECCSA80

95mm Order Code: SCECCSA95

- Self tapping 95mm length with 10mm outer; M8 diameter screw
- Spigots: Tekapo, Rakaia Channel
- Drill a 8mm Hole

M10 Concrete Wedge anchor x 110mm Stainless Steel

Code: SCECHSA-K

- Spigots: Kaweka

M12 & M10 Concrete Screw Anchor 110mm Long
Stainless Steel 316 (Hex head drive)

Order Code: SCECHSA

- Self tapping 110mm length with 14mm outer; M12 diameter screw
- Spigots: Milford, Kaweka
- Drill a 12mm hole

Threaded Rod

Stainless Steel 316 (Hex head drive)

M10 Order Code: SCETHR10

(for Rakaia Channel)

M12 Order Code: SCETHR12

(for Milford, Kaweka and Aoraki Spigots)

- Chemset also supplied for concrete applications - ask our sales team for more info
- Drill a 14mm hole when using Chemset

*Also other items such as Chemset and threaded rod available on request.

RAKAIA FRICTION CHANNEL

3m & 1.5m Long Channel Kits

The all new Rakaia side mounted friction fitting glass channel system has been designed for the most simple installation method in mind, it also meets and surpasses all compliance that is required for New Zealand regulations.

Its durability is outstanding, having been tested in our own testing facility we were sure blown away at the strength that this system serves.

Our durable channel systems provide a modest and continuous design for pool fencing and balustrading.

RAKAIA CHANNEL - FRICTION FIT

Timber Order Code: SCECHT

Concrete Order Code: SCECHC

*Includes channel, powder coated inner and outer covers, plastic insert, pressure plate, grub screws, hanger brackets and mounting screws.

CHANNEL PARTS

ADDITIONAL COMPONENTS

SCECHGS

Grub Screws (per unit)

SCECHCC

Corner Cap (per unit)

SCECHEC

End Cap (per unit)

SCECHHB

Hanger Bracket (per unit)

SCECHJC

Channel Join Cover (per unit)

INFINITY LOOK

Very sleek, infinity edge look where you will see no fixings, making the channel look like a flashing.

The channel is made up of a total of 5 different extrusions plus the fixings. The main extrusion which is the channel is formed from a High Tensile Aluminium 6061-T6

The cover plates are powder coated to any colour you choose out of the Dulux powder coated system.

WIND REGIONS

Suitable for up to Extra High and SED
Wind zones.

OCCUPANCY TYPE

Suitable for occupancy types A, B, E and C3
Occupancy types as per AS/NZ 1170.1.2002

CHANNEL DIMENSIONS

DECK LAYOUTS / FIXINGS

TIMBER FLUSH MOUNT

SCETCSK
Timber CSK screw for the top fixing.
SCELAG140
Timber LAG Screw for the bottom fixing.
Along with 2 x M10
Nuts to go either side of the bottom Fin
(as shown below)

CONCRETE FLUSH MOUNT

SCECCSA
For the top fixing M8 Countersunk
concrete screw
SCETHR10
Threaded rod and 2 x
M10 nuts for the bottom fixing.
Nuts to go either side of the bottom fin.
(as shown below)

SIDE MOUNT OPTION

For the side mount option, all channel
components are the same apart from the top
deck cap which, when ordering, will need to be
swapped out for part code: SCECHCTN

ANGLE ADJUSTMENT

Easily adjust the angle of glass panels in the
Rakaia Channel by tightening either nuts
adjusting the angle of the main channel.

GATE HARDWARE: LATCHES & HINGES

BelAire offers a 24 month warranty from the moment of purchase on gate hardware (hinges and latches)

GLASS-TO-GLASS LATCH KIT

Polish Finish Duplex 2205 Stainless Steel

Order Code: SCEHPGL

SPECIFICATION

- Full stainless steel side pull latch; Duplex 2205 stainless steel
- Friction latch for glass to glass 180 degree application
- Suits 8mm and 10mm glass gates
- Latch panel must be 12mm thick - No latch holes required
- Available in polish finish only

GLASS-TO-WALL SQUARE POST LATCH KIT

Polish Finish Duplex 2205 Stainless Steel

Order Code: SCEHPGWL

SPECIFICATION

- Full stainless steel side pull latch; 2205 stainless steel
- Suitable for application to wall or square posts
- Suits 8mm and 10mm glass gates
- Available in polish finish only

GLASS-TO-GLASS 90° LATCH KIT

Polish Finish Duplex 2205 Stainless Steel

Showing external latch

External Order Code:
SCEHPGL90EX

Internal Order Code:
SCEHPGL90IN

SPECIFICATION

- Side pull latch glass gate to 90 degree latch panel external fit
- Stainless steel backing plates and latch
- Suits 8mm and 10mm glass gates
- Latch panel must be 12mm thick - no latch holes required

Showing external latch

GLASS-TO-GLASS LATCH KIT

316 Stainless Steel & Polymer

Polish Finish Order Code: SCEGL
Black Finish Order Code: SCEGL B
Satin Finish Order Code: SCEGL S

SPECIFICATION

- Side pull latch
- Friction latch for glass to glass 180 degree application
- Stainless steel backing plates + D&D side pull polymer latch
- Suits 8mm and 10mm glass gate
- Latch panel must be 12mm thick - no latch holes required
- Available in polish finish backing plates

GLASS-TO-GLASS 90° LATCH KIT

(external fit) 316 Stainless Steel & Polymer

Polish Finish Order Code: SCEGL90EX
Black Finish Order Code: SCEGL90EX B
Satin Finish Order Code: SCEGL90EX S

SPECIFICATION

- Side pull latch glass gate to 90 degree latch panel external fit
- Stainless steel backing plates + D&D side pull polymer latch
- Suits 8mm and 10mm glass gates
- Latch panel must be 12mm thick - no latch holes required

GLASS-TO-GLASS 90° LATCH KIT

(internal fit) 316 Stainless Steel & Polymer

Polish Finish Order Code: SCEGL90IN
Black Finish Order Code: SCEGL90IN B
Satin Finish Order Code: SCEGL90IN S

SPECIFICATION

- Side pull latch
- Glass gate to wall/square post application
- Stainless steel backing plates + D&D side pull polymer latch
- Suits 8mm and 10mm glass gates
- Available in satin or polish finish backing plate
- Suits 'internal 90 degree' configuration

GLASS-TO-WALL/ SQUARE POST LATCH KIT

316 Stainless Steel & Polymer

Polish Finish Order Code: SCEGWL
Black Finish Order Code: SCEGWL B
Satin Finish Order Code: SCEGWL S

SPECIFICATION

- Side pull latch glass gate to 90 degree latch panel internal fit pull polymer latch
- Stainless steel backing plates + D&D side
- Suits 8mm and 10mm glass gates
- Latch panel must be 12mm thick - no latch holes required
- Available in polish finish backing plate

GLASS-TO-GLASS HINGES

(set of 2) Duplex 2205 Stainless Steel

Polish Finish Order Code: SCEHPHSN

Satin Finish Order Code: SCEHPHSN S

Black Finish Order Code: SCEHPHS B

SPECIFICATION

- Glass gate to glass hinge panel
- Stainless steel Duplex 2205
- Suits 8 and 10mm glass gates
- Available in polish finish
- Cone cap incorporated to prevent 'toe hold'
- Includes solid stainless 2205 backing plates for a premium finish

GLASS-TO-WALL/SQ. POST HINGES

(set of 2) Polish Finish Duplex 2205 Stainless Steel

Polish Finish
 Order Code: SCEHPGWHSN

Black Finish
 Order Code: SCEHPGWHS B

Satin Finish
 Order Code: SCEHPGWHS S

SPECIFICATION

- Glass gate to wall or square post application
- Suits 8 and 10mm glass gates
- Stainless steel Duplex 2205
- Available in polish or satin finish
- Cone cap incorporated to prevent 'toe hold'
- Gap between post or wall and glass gate is min 18mm max 22mm

BelAire offers a 24 month warranty from the moment of purchase on gate hardware (hinges and latch)

POLARIS SOFT CLOSING GLASS-TO-GLASS HINGE

125 Series Pool Hinge

NO SLAMMING!
SOFT CLOSING GATE HINGES

Polish Finish

Order Code: SCEPHGG

Black Finish

Order Code: SCEPHGG B

SPECIFICATION

- 2205 grade stainless steel
- Self closing pool fence compliant safety hinge
- Suits 10 or 12mm thick glass gates (max 45kg)
- Polish or matt black finish
- Sleek new look
- Revolutionary anti-drop gate packing system which lowers the chance of the gate dropping.

Easy swing tension adjustment with allen key

POLARIS 125 SERIES GLASS-TO-WALL HINGES

(set of 2) Duplex 2205 Stainless Steel

Polish Finish

Order Code: SCEPHGW

Black Finish

Order Code: SCEPHGW B

Easy swing tension adjustment with allen key

SPECIFICATION

- 2205 grade stainless steel
- Self closing pool fence compliant safety hinge
- Suits 10 or 12mm thick glass gates (max 45kg)
- Polish or matt black finish
- Gate opens to 120°
- Sleek new look
- Revolutionary anti-drop Gate Packing system which lowers the chance of the gate dropping.
- Gap between post or wall and glass gate is min 26mm max 29mm

BelAire offers a 24 month warranty from the moment of purchase on gate hardware (hinges and latches)

Install With Ocean Views

A recent BelAire glass fencing installation! Hawke's Bay's Ocean Beach sitting beneath this crow's nest makes another picturesque location for a Scenic glass pool fencing job, leaving the view uninterrupted...

Project Specifications:

12mm Toughened Enduroshield Glass Fencing

1200mm high to meet all required council F9 specifications all provided with a PS1

Polished Core Drill Stainless 2205 Spigots & Soft closing Hinges

38 meters installed into concrete by core drilling

Balustrade Install

A Blenheim client approached BelAire Designer Fencing for a balustrading solution for his outdoor decking and pool area, not wanting to obstruct his amazing view. Our frameless glass balustrade system provided functionality and safety that complemented the aesthetics of our client's house.

Project Specifications:

12mm Toughened Enduroshield Glass Fencing
Combination of 1200mm high and 1000mm high

Tekapo Base Mounted Spigot
105 meters installed into timber decking

"I was really impressed with how easy BelAire made the whole process. The computerised layout and plan of what was required made it so easy. Great to get a reliable quote and then easy delivery and after care service."

Aluminium Fencing & Screen Systems

COST-EFFECTIVE

BelAire slat and louvre fencing is a great cost-effective option where a degree of privacy and security is required.

BUILT TO LAST

Our powder coated aluminium posts, channels and slats are very light, structurally very strong, and are supplied to you in a colour (or combination of colours) of your choice.

It is important to note that our fencing, with 25mm wide slats, is superior in strength to some inferior fencing with 16mm wide slats.

EASY INSTALLATION

Our slat and oblique fencing is designed to be assembled with ease. The aluminium fencing and screen systems use either inground or flanged posts. BelAire slat fencing panels can be easily handled by two people, making them perfect for difficult-to-access areas such as back yards or annexed ground.

We provide step-by-step self-install instructions that any competent DIY person should be able to follow, but if you'd rather get someone else to install it, we have a list of preferred installers throughout NZ. Call us on 0800 235 2473 and we will put you in touch with an installer in your area.

WARRANTY

New Zealand-made and 10-year warranty information. Be assured that with very little maintenance your fence will give you great privacy and security for many years to come. Only the finest raw materials have been used in the construction of your fence. The suppliers of these raw materials state that they have a design life well in excess of 20 years. With this assurance we offer you a replacement warranty for any component of your new fencing if it fails within 10 years* from date of purchase.

*2yr warranty within a 1500m sea spray zone.

Why Choose BelAire Slat Fencing?

KEY FEATURES

See below our strength test of the BelAire 85 x 25 mm slat. Super strength was proven in this test when we loaded 69.3kgs onto the 85 x 25mm slat spanning 2400mm. The 65 x 16mm slat took a mere 30kgs before it crumpled to the ground. As you can see in the images below, the BelAire slat had a bow that was comparable to that of the 65mm slat even though the 16mm slat was only carrying 25.2kg.

- No twisting, warping or rotting
- Looks the same as the day it was installed for many years
- Already finished to a colour of your choice
- Simple install
- Customisable and versatile to suit any landscape
- Horizontal or vertical options
- Lightweight but very durable
- Low maintenance
- Modern sleek look
- Adjustable gaps to suit your privacy needs
- Hidden fixings
- Made from 6061 T5 high tensile aluminium

BELAIRE SLAT vs TRADITIONAL 65 X 16MM SLAT

HORIZONTAL SLAT FENCING

Post dimensions: 60 x 60 x 2mm or 90 x 90 x 3mm BMT

Slat profiles: 85mm x 25mm or 60mm x 25mm

Suitable for fence heights: 900mm – 2400mm

Post centres: 2410mm, 2710mm, 3010mm

*Based on 60mm x 60mm posts

BelAire slat fencing is fully customisable. If there's a particular size or configuration you require, call us on 0800 235 2473 and we'll custom-make a fence just for you.

POWDER COAT COLOURS

STANDARD COLOUR RANGE FOR 85mm SLATS (BEST PRICES)

You can choose the same colour for your posts, channels and slats, or any combination you wish!

We can also powder coat the slats to any of the colours in the Dulux powder coating chart, found at: www.duluxpowdercoatings.co.nz

SLATS

Slat construction:

85 x 25mm (standard stocked size in 7 colours above)

60 x 25mm (standard stocked in ebony only)

1.6mm powder coated aluminium

It is important to note that our fencing, with 25mm wide slats, is superior in strength to some inferior fencing with 16mm wide slats.

Available in two heights – 85mm is our standard stocked size, and 60mm slats are available on request. The two types of slats can be used exclusively, or combined in any way you choose. Both can also be used either horizontally or vertically.

Oblique Fencing

PRIVACY AND VERSATILITY

The beauty of BelAire oblique fencing lies in its ability to make your property completely private when viewed from one direction, while it allows you to see through it from another. Keep your kids safe in the garden, while keeping an eye on them from the house. It's so versatile – with three heights and four configuration options you'll have every angle covered. And it can run along sloped boundary lines and uneven ground. (Check with us to see which configurations will best suit your requirements.)

With stunning architectural impact, BelAire oblique fencing will enhance your property and safeguard your family.

BUILT TO LAST

The powder-coated aluminium posts, channels and slats are very light, structurally very strong, and are supplied to you in classic Kiwi Dulux Flaxpod. BelAire oblique fencing can also be supplied in any Dulux powder coat colour (or combination of colours) of your choice at additional cost.

EASY INSTALLATION

BelAire oblique fencing is designed to be assembled with ease. The posts are simply concreted into post holes while the lightweight aluminium slats are perfect for difficult-to-access areas such as back yards or annexed ground.

We provide step-by-step self-install instructions that any competent DIY person should be able to follow, but if you'd rather get someone else to install it, we have a list of preferred installers throughout NZ. Call us on 0800 235 2473 and we will put you in touch with an installer in your area.

WARRANTY

Be assured that with very little maintenance your fence will give you great privacy and security for many years to come. Only the finest raw materials have been used in the construction of your fence. The suppliers of these raw materials state that they have a design life well in excess of 20 years. With this assurance we offer you a replacement warranty for any component of your new fencing if it fails within 10 years from date of purchase.

OBLIQUE FENCING

Post dimensions: 60mm (deep) x 60mm (face) 2 mm SHS

Oblique slat thickness: 25mm

Fence heights: 1200mm , 1500mm, 1800mm

Post centres: 1860mm, 2410mm

BelAire oblique fencing
is fully customisable.

If there's a particular size or
configuration you require,
call us on 0800 235 2473 and we'll
custom-make a fence just for you.

POWDER COAT COLOUR

Flax

BelAire oblique fencing posts, channels and slats are supplied in powder coated Dulux Flaxpod. They can also be supplied in any Dulux powder coat colour of your choice at additional cost. The Dulux powder coating chart can be found at: www.duluxpowdercoatings.co.nz

You can choose the same colour for your posts, channels and oblique slats, or any combination you wish!

BelAire®
DESIGNER FENCING

...make it your own!

The New Aurora Panel

The introduction of Aurora aluminium fence panels marks a significant advancement in architectural design. With their sleek and modern appearance, these panels offer a fresh aesthetic to any property they adorn. Their clean lines and durable construction make them a popular choice for both residential and commercial applications.

Architects and designers appreciate the versatility of Aurora aluminium fence panels, as they can be customized to suit various styles and preferences. Whether its a contemporary urban landscape or a traditional suburban setting, these panels seamlessly blend in while adding a touch of sophistication.

Moreover, the durability of aluminium ensures that these fence panels not only enhance the visual appeal of a property but also provide long-lasting protection and security. Their resistance to corrosion and weathering makes them a low-maintenance option for property owners seeking both style and functionality.

Overall, the introduction of Aurora aluminium fence panels represents a shift towards modern architectural aesthetics, offering a stylish solution for enhancing the look and security of any property.

Aurora Panel Fencing

DURABLE CONSTRUCTION

Made from high-quality aluminium, Aurora fence panels are built to withstand the elements and resist corrosion, ensuring long-lasting performance and minimal maintenance requirements. With guaranteed no shrinking, warping, twisting, rotting or rusting.

SLEEK DESIGN

With their modern and streamlined appearance, Aurora panels add a touch of elegance to any property. Their clean lines and smooth finish contribute to a contemporary architectural look.

CUSTOMISABLE

Aurora aluminium fence panels are available in various styles, heights, and colours, allowing for customization to suit specific design preferences and property requirements.

EASY INSTALLATION

Designed for straightforward installation, Aurora panels come in either a full kitset or assembled panels to make installation a breeze. Simple assembly instructions, make the installation process quick and hassle-free.

We provide step by step self-install instructions that any competent DIY person should be able to follow.

LOW MAINTENANCE

Unlike traditional fencing materials such as wood, aluminium requires minimal maintenance. Aurora panels are resistant to rust, fading, and warping, ensuring they retain their appearance over time without the need for frequent upkeep.

VERSATILITY

Whether used for residential yards, commercial properties, or public spaces, Aurora aluminium fence panels offer versatility in application. They can be installed around pools, gardens, or along property lines to provide security and enhance curb appeal.

ENVIRONMENTALLY FRIENDLY

Aluminium is a sustainable and recyclable material, making Aurora fence panels an eco-friendly choice for environmentally conscious consumers.

SECURITY

In addition to their aesthetic appeal, Aurora aluminium fence panels provide a secure barrier, deterring intruders and ensuring the safety of property occupants.

F9 COMPLIANCE

The Aurora Panel system has been designed and engineered to be compliant to F9 for surrounding swimming pools. PS1's available on request.

F4 COMPLIANCE

The Aurora Panel system has been designed and engineered to be compliant to F4 for when there is a fall of over 1000mm. PS1's available on request.

BelAire®
DESIGNER FENCING

...make it your own!

Solid Acoustic Panel Fencing

In today's world, noise reduction is one of the leading concerns across New Zealand homeowners. The BelAire range of acoustic fences and noise barriers have been specifically engineered to meet the acoustic demands of our modern world.

We handle a variety of noise reduction concerns; from general neighbourhood noise, to road noise, to high-performance noise absorption enclosures for pool pumps and HVAC units. On average, our acoustic fences and road noise barriers typically achieve a 20-30dB reduction (depending on noise source and noise type), which equates to a quartering of loudness.

Understanding 'loudness', or the human perception of sound, can be tricky; but you can test just how much difference this makes with the simple help of a video and its volume controls. First, watch the video at 100% volume. Then, reduce the volume to 25%; this is the potential noise reduction that our acoustic fences offer.

Put the controls back into your hands; turn down the volume of loud neighbours and traffic noise today.

ACOUSTIC FENCING

BelAire solid wall systems are acoustically tested and rated, keeping all unwanted surrounding noises at bay and providing peace and quiet for your home.

ECO FRIENDLY

Our innovative products are made of recyclable materials, with our manufacturing processes reducing emitted and embodied CO₂ by up to 80%.

NZ MADE

All BelAire walls products are NZ designed and manufactured to strict international quality standards.

BelAire®
DESIGNER FENCING

...make it your own!

Solid Panel Fencing

MODULAR SYSTEM

BelAire solid panel fencing is the most advanced modular fencing system available in New Zealand today.

DESIGNED BY YOU

With the Classic, Signature and Estate styles to choose from, you can design your fence to suit your lifestyle. Our fences and posts are all fully paintable so that you can complement or match the colour of your property.

You can also add stylish slat, louvre, tubular or glass infills, plus there is a choice of flush or exposed capping for posts and panels – the options for your fence are only limited by your imagination.

COST-EFFECTIVE

BelAire solid panel fencing has all the properties of a block wall at a fraction of the cost and mess!

BUILT TO LAST

Our pre-primed, galvanized, high-tensile support posts are very light yet structurally very strong. Our EPS/fibre cement panels are designed to withstand the typical demands placed on a fence in any environment.

EASY (DIY) INSTALLATION

Our fences are designed to be assembled with ease. There is no need for heavy construction and digging

equipment, or cranes – BelAire panels can be easily handled by two people. They are easy to install in difficult-to-access areas such as back yards or annexed ground.

We provide step by step self-install instructions that any competent DIY person should be able to follow, but if you'd rather get someone else to install it, we have a list of preferred installers throughout NZ. Call us on 0800 235 2473 and we will put you in touch with an installer in your area.

WARRANTY

New Zealand-made with a 5-year warranty period. Be assured that with very little maintenance your fence will give you great privacy and security for many years to come. Only the finest raw materials have been used in the construction of your fence. The suppliers of these raw materials state that they have a design life well in excess of 20 years. With this assurance we offer you a replacement warranty for any component of your new fencing if it fails within 5 years* from date of purchase.

*2yr warranty within a 1500m sea spray zone.

EXPOSED JOIN OR CLOSED JOIN?

An exposed join is recommended – it is more forgiving if you haven't quite got the panels 100% level, and also gives a much more attractive result.

<< How to achieve a exposed join

Insert the steel channel section into the 11mm rebate in the panels

How to achieve a Closed join >>

Insert the steel channel section into the 20mm rebate in the bottom panel

NOISE BARRIER

Our patented solid Poly-fibre cement composite sandwich panels are designed to reflect noise. The acoustic performance of this product was evaluated by the Acoustics Research Group at the University of Canterbury and a comprehensive report is available on request.

TYPICAL TRAFFIC NOISE – 12m from road edge

approx. 60 dBa: 2-lane urban road, 6,000 vehicles per day @ 50kph
approx. 68 dBa: 4-lane motorway, 25,000 vehicles per day @ 100kph

TYPICAL OTHER NOISE

approx. 90 dBa: Lawnmower
approx. 100 dBa: Circular saw

THE ALL-TERRAIN FENCE

BelAire solid panels can be easily cut using a circular saw with a timber blade. This will allow you to easily and neatly follow the terrain of your property.

CLASSIC

Post dimensions: 120mm (deep) x 180mm (face) 0.95 mm BMT

Panel thickness: 50mm

Density of composite panel materials: 15.49kg/m²

Suitable for fence heights: 900mm – 2400mm

Post centres: 2530mm, 2830mm

The Classic fence is the most cost effective of the styles and most commonly used in residential boundary/screening fence applications. Suitable for less challenging terrain, this style of fence will provide great sound reduction qualities. Also suited to lower fence designs – 1200mm and 1500mm high.

SIGNATURE

Post dimensions: 140mm (deep) x 280mm (face) 0.95 mm BMT

Panel thickness: 70mm

Density of composite panel materials: 15.49kg/m²

Suitable for fence heights: 900mm – 3000mm

Post centres: 2630mm, 2930mm

The Signature fence, our most popular line, is most commonly used where a true masonry wall look is desired, or in a commercial and residential security/sound fence application. The fence has superb sound reduction qualities (National Acoustic Laboratory tested).

ESTATE

Post dimensions: 210mm (deep) x 320mm (face) 0.95 mm BMT

Panel thickness: 70mm

Density of composite panel materials: 15.49kg/m²

Suitable for fence heights: 900mm – 3000mm

Post centres: 2670mm, 2970mm

The Estate fence is most commonly used where a 'Grand' masonry wall look is desired. The post face is equivalent to a brick and a half in width, and the fence has superb sound reduction qualities (National Acoustic Laboratory tested).

**2400mm max (length) x 1200mm. (height)
x 12mm (width)**

River Road Residence

This customer initially contacted us with project requirements of boundary fencing along the front of her property and bordering off the pool area for ultimate privacy.

To meet her requirements, we offered a mix of Solid Accoustic wall at 2.1 meters high as well as our Signature Solid Wall at 2.1 meters high. This meant we were able to block out the traffic noise from River Road and keep the pool area looking uniform to enhance the landscaping.

Project Specifications:

Signature Wall

60m x 2.1m high

Acoustic Solid Wall

80m x 2.1m high

Commercial Acoustic Barriers

HOW DOES A NOISE BARRIER WORK?

A noise barrier is a solid structure that intercepts and reduces sound within the shadow it casts. The closer a barrier can be to the source or receiver and the higher it is, the more effective it will be, and, to be effective, the line of sight between the source and receiver must be blocked completely by the barrier.

The standard BelAire 70mm panel, with its 60mm expanded polystyrene core, will reduce sound levels up to approximately 28 decibels*.

*See "Acoustic Barrier Field Test". Levels in your own situation may differ due to environmental conditions such as ground type and surrounding objects or buildings. Frequency is also a factor – high-frequency sounds are more effectively decreased than low-frequencies.

HUMAN PERCEPTION OF SOUND

DID YOU KNOW? A decrease in noise of 10dB would be perceived to be half as loud, and a 28dB reduction represents a decrease of 85% to the human ear.

COMMERCIAL ACOUSTIC BARRIERS

Decibels	Residential	Commercial
20dB	Whisper	Secluded Woods
45dB	Bedroom	Library
60dB	Conversation	Air Conditioning Unit
70dB	Living Room Music	Passing Cars
80dB	Factory Office	Passing Truck
90dB	Lawn Mower	Chainsaw
100dB	Motorbike	Jointer/Planer
110dB	Music Concert	Jack Hammer
120dB	Rock Concert	Jet Aircraft 150m away
140dB	Large Generator	Jet Aircraft 5m away

ACOUSTIC FIELD TEST REPORT

Evaluated by the Acoustics
Research Group at the University of
Canterbury. A comprehensive report
is available on request.

PURPOSE:

It is the intention of this report to illustrate the performance of the BelAire barrier system in real-world applications. These testing environments were selected due to their ability to offer easily identifiable and comparable scenarios. This included:

- Origin of sound, its type and extent
- Geographical layout
- Barrier configuration

SCOPE:

This information is to be used as a guide and in conjunction with the independent laboratory testing that has been performed on BelAire barriers. The test results reported below are an accurate account of the locations used. Should specific values be required for an application of the BelAire barrier system, it is recommended that a formal acoustic analysis be undertaken for that environment.

TESTING EQUIPMENT SPECIFICATIONS

Digitech model	QM-1589
Standard applied	IEC651 type 2, ANSI S1.4 type2
Frequency range	31.5Hz~8kHz
Measuring level range	30~130dB (Low range 30-100dB used for these records)
Frequency weighting	A/C (A used for these records)
Microphone	½” electret condenser
Time weighing	Fast 125mS, Slow 1 Sec (Slow used for these records)
Accuracy	+/-1.5dB

TEST 1 HIGHWAY ROAD NOISE

Origin source	6 lane highway (70Km/hr)
Location of barrier from origin	5.5m
Barrier type	4.0m barrier type wall (75mm panel)

Readings at exposed side

Steady fluctuation	71-81dB
Peak reading	84dB
Minimum reading	68dB

Readings at shielded side

Steady fluctuation	58-60dB
Peak reading	61dB
Minimum reading	56dB

NOTES:

Further readings were taken at a distance of 5 metres back from the shielded side of the barrier (approx 10.5m from origin). Readings at this distance displayed a fluctuating range of 1 to 2dB higher than at the shielded face of the barrier. Readings at greater distances from the shielded face displayed only ambient sound levels and were not influenced by the fluctuating decibel range of the highway.

TEST 2 DOMESTIC LAWNMOWER

Origin source	2-Stroke lawnmower
Location of barrier from origin	2m
Barrier type	2.1m traditional type wall (75mm panel)

Readings at exposed side

Steady fluctuation	90-91dB (min/max reading also)
--------------------	-----------------------------------

Readings at shielded side

Steady fluctuation	62dB (min/max reading also)
--------------------	--------------------------------

NOTES:

A secondary reading was taken at a distance of 5 metres back from the shielded side of the barrier and a steady reading of 63 dB was recorded. This increase of approx 1dB is consistent with the highway values shown in Test 1. The peak and minimum readings for the lawnmower test are not listed due to them being identical to the steady output values.

ACOUSTIC BARRIER POSTS

FOR BARRIERS up to 3.0m HIGH

Post dimensions: 140mm (deep) x 280mm (face) 0.95 mm BMT

Panel thickness: 70mm

Density of composite panel materials: 15.49kg/m²

Suitable for fence heights: 900mm – 3000mm

Post centres: 2630mm, 2930mm

FOR BARRIERS up to 3.1m – 5.1m HIGH

Post dimensions: 250mm (deep) x 150mm (face) 0.95 mm BMT

Panel thickness: 70mm

Density of composite panel materials: 15.49kg/m²

Suitable for fence heights: 3000mm – 5100mm

Post centres: 2470mm

NOTE: All barriers over 3m high need to be engineered to suit the wind regions and the ground conditions. Please contact us on 0800 235 2473 for more details.

Walls over 3000mm high will likely need to use a 100UC14 Column.

Early Education Centre

An early education centre in one of Hamilton's fast-developing subdivisions was looking for a wall which provided them with maximum security and noise reduction. BelAire Fencing customised a 200m Classic wall with a fun and playful colour combination.

Project Specifications:

Client: Rob Berridge Fencing

Classic Acoustic Wall

200m x 1.5/1.8m high

Flush Capping, Solid Wall

The 1500mm and 1800mm high solid panel acoustic wall was made a feature by alternating the 900mm and 600mm solid panels to create a feature out of the paint combinations.

Parklands Subdivision

The Napier Council required a noise attenuation and security wall for its subdivision in Parklands. The project was bordering the expressway so noise reduction was an important feature. In 15 days we were able to construct 1500m of 1.8m high barrier wall.

Project Specifications:

Signature Acoustic Wall

1500m x 1.8m high

Exposed Capping, Solid Wall

1800mm high Solid acoustic wall

"We were all very happy with the work carried out. Everything was done in a very efficient and professional manner and the guys are a great team to work with. Thanks again."

HORIZONTAL ECO SLAT GATE KIT

Introducing our new, economical, cut-to-size, kitset slat gate

Supplied in kit form as: Two 1185mm channels and 12 x 980mm wide slats (85mm x 25mm), or
Two 1485mm channels and 15 x 980mm wide slats (85mm x 25mm), or
Two 1785mm channels and 18 x 980mm wide slats (85mm x 25mm)

Gates also include 2 x stainless steel butt hinges, and a Viper Gravity latch (lockable from both sides)
Simply assemble your gate – the sliding plate covers will cover the screws to provide a professional finish.

Channel construction:

Powder coated aluminium.

Channel: 39mm x 32mm
(includes sliding screw cover plate)

Height: 1200mm, 1500mm and 1800mm

Pedestrian Gate Width: Up to 1000mm

Powder coat colours:

1.6mm powder coated aluminium

It is important to note that our gates with 25mm wide slats are superior in strength to some inferior gates with 16mm wide slats.

LOUVRE GATES

Construction:

Powder coated aluminium.

Louvre Dimensions:

- 135mm (height) x 30mm (width)

Height: 1200mm - 2100mm

Pedestrian Gate Width: 800mm - 2500mm

Driveway Swing Gate Width: 800mm - 2500mm

Driveway Sliding Gate Width: 2500mm - 6000mm

Colour: Client's choice of any Dulux powder coat colour

All gates come with a 60mm x 60mm aluminium frame as standard unless stated otherwise.

For larger sliding gates we use a 100mm high x 60mm width bottom rail for strength and a 60mm x 60mm surround frame.

SOLID GATES

Construction:

0.55mm preprimed steel outer skins.
13mm expanded polystyrene core.
Welded aluminium frame.

Panel Dimensions:

- Up to 1200mm (width)
x 2100mm (height)

Height: 1200mm - 2100mm

Pedestrian Gate Width: 800mm - 2500mm

Driveway Swing Gate Width: 800mm - 2500mm

Driveway Sliding Gate Width: 2500mm - 6000mm

Colour: Ready for priming and painting

AURORA GATES

Construction:

Powder coated aluminium.

Slat dimensions:

- 38mm x 25mm Slats
(mounted on the 25mm side)
- 60mm x 25mm Slats
(mounted on the 60mm side)

Height: 1200mm - 2100mm

Pedestrian Gate Width: 800mm - 2500mm

Driveway Swing Gate Width: 800mm - 2500mm

Driveway Sliding Gate Width: 2500mm - 6000mm

Colour: Standard in Ebony, also available in custom colours

- High grade polymer and stainless steel
- Resists UV and rust degradation

STAINLESS STEEL BUTT HINGE

304 Grade Satin Finish Stainless Steel

Order Code:

Stainless: BELBUTT

Black: BELBUTT-B

SPECIFICATION

- 304 grade stainless steel
- Satin & black finish
- Fixed pin
- Square edge
- Stainless steel screws supplied
- Size: 100mm x 75mm 2.5mm
- For gates from 900 - 1500mm wide
- Rivets provided

When using **STAINLESS STEEL BUTT HINGES**, leave a gap between the posts that is:

- 25mm wider than the gate (for a single gate) or
- 35mm wider than the gates (for double gates).

This is our standard hinge used unless otherwise specified

HEAVY-DUTY BLACK HINGE

3mm Aluminium Wall or Post Mounted

Order Code: BELKFH

SPECIFICATION

- 3mm aluminium
- Black satin finish
- Adjustable tension
- Size: 145mm x 88mm 55mm
- For gates up to 1500mm wide

When using **HEAVY-DUTY BLACK HINGES**, leave a gap between the posts that is:

- 35mm wider than the gate (for a single gate) or
- 55mm wider than the gates (for double gates).

HINGED GATES

HEAVY DUTY GATE HINGES

8mm Steel

Order Code: BELHDGH

SPECIFICATION

- Screw on fittings
- Power coated to same as gate colour
- For gates 1500 - 2500mm wide

DROP BOLT

12mm Diameter Steel

Order Code:
Stainless: BELDB

SPECIFICATION

- Screw on fittings

Order Code:
BELDB

POOL HINGE & LATCH SET

SET INCLUDES 2 HINGES & LATCH: Order Code: PGH

MAGNETIC SAFETY LATCH

Polymer and Stainless Steel

SPECIFICATION

- Visual indicator shows locked/unlocked status
- New, higher-security lock cylinder
- Vertically and horizontally adjustable
- Indicator marks show if adjustment is required
- Meets all Australian and NZ Standards for pool gates
- Minimum post size: 25mm+
- Gap between post and gate: 30-35mm
- Fixing method: screw-on
